PROJECT - **E-VEHICLE SITE**

A Website for all your Moto needs.

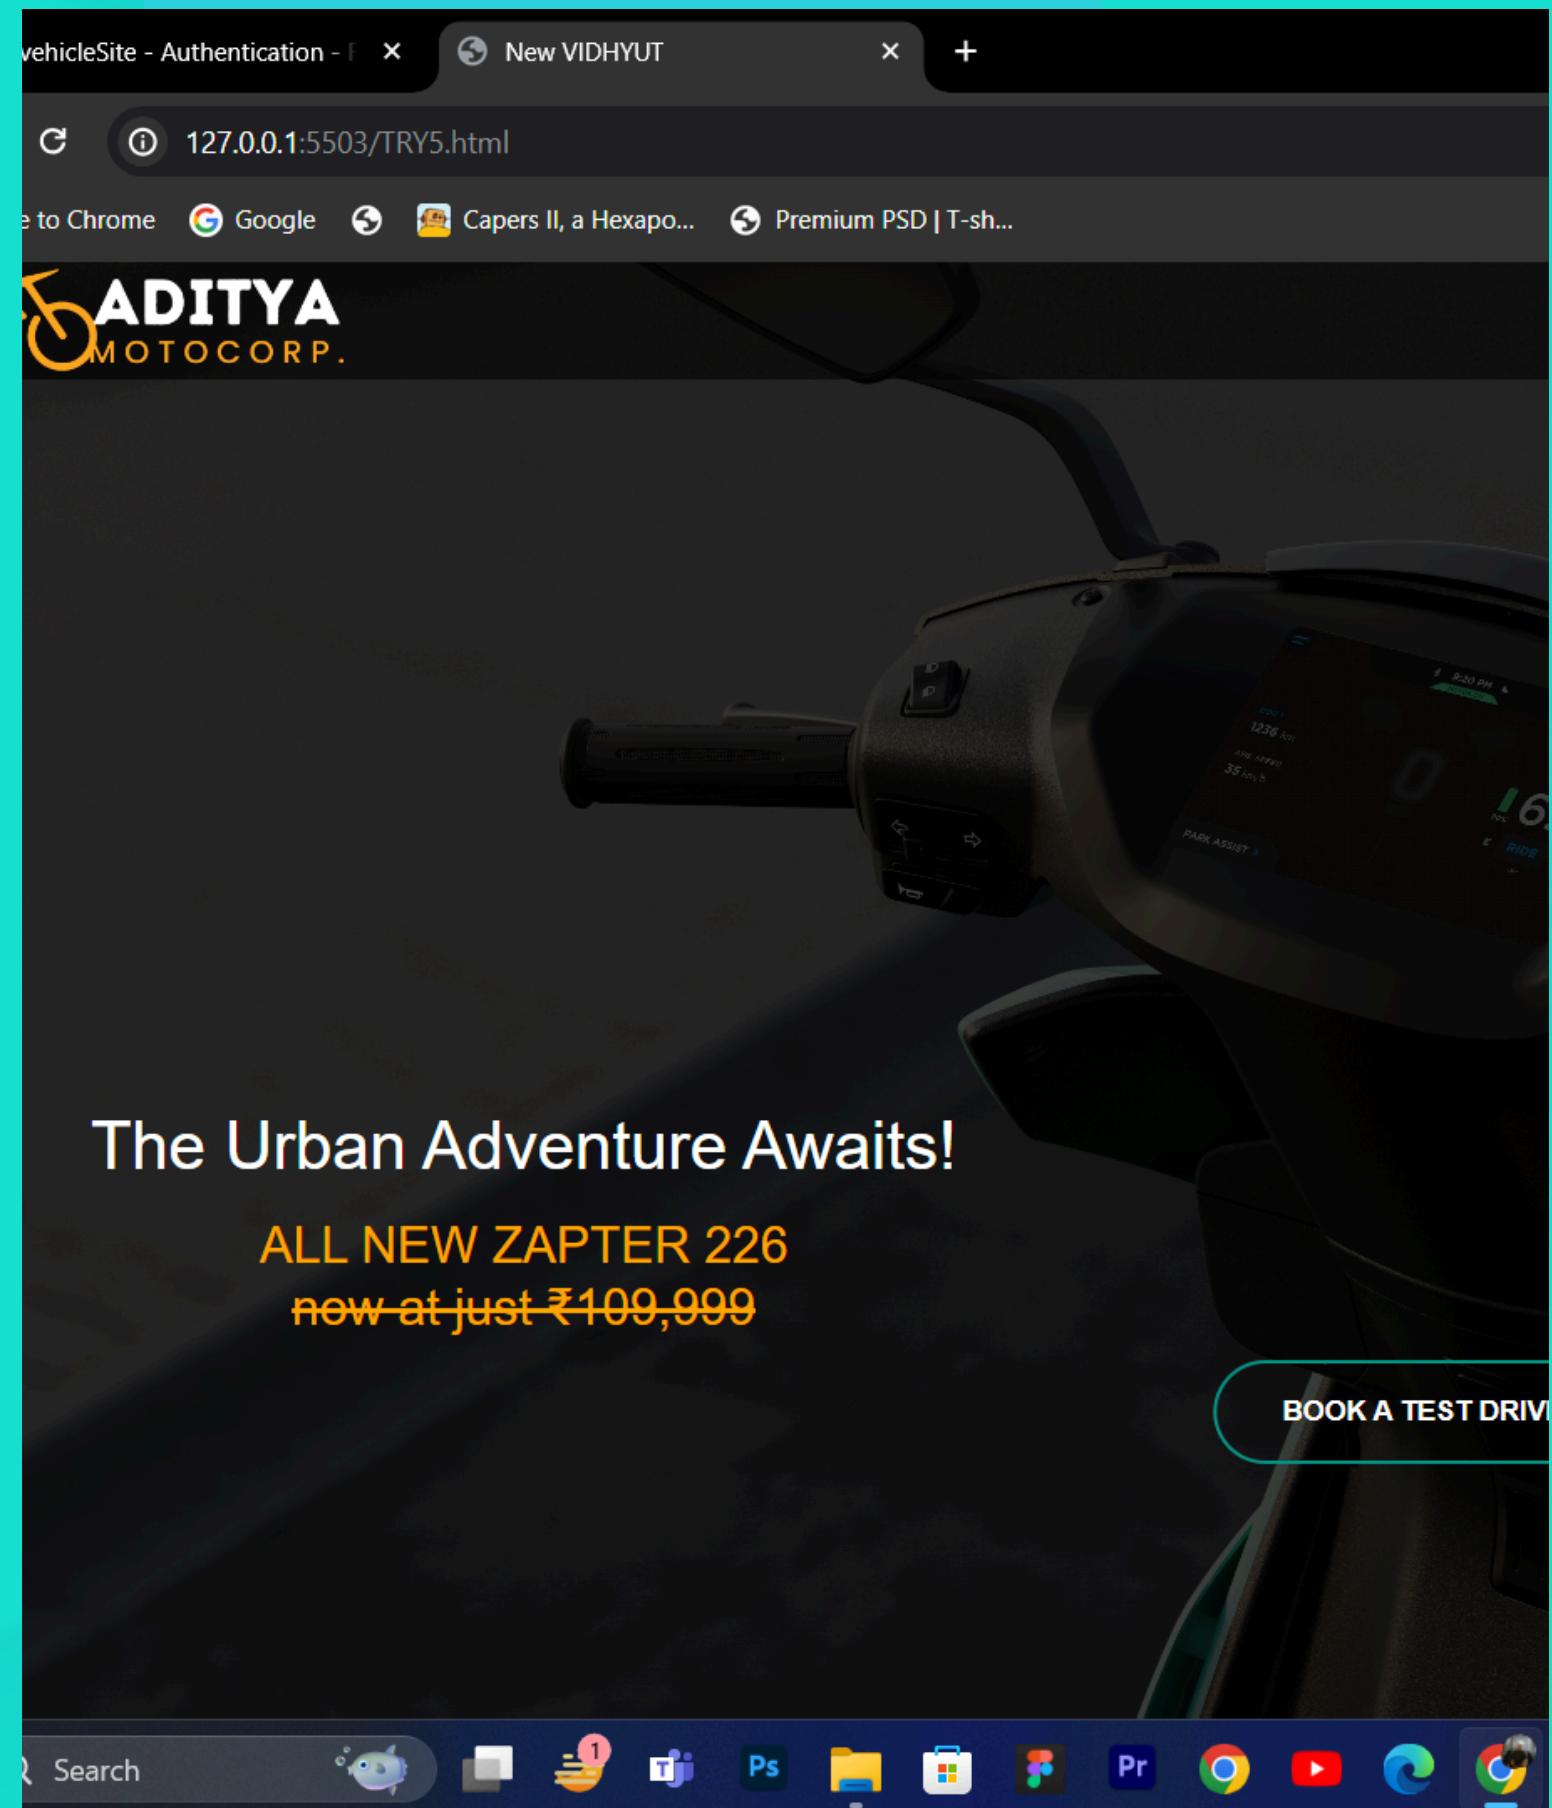

+ Get Started

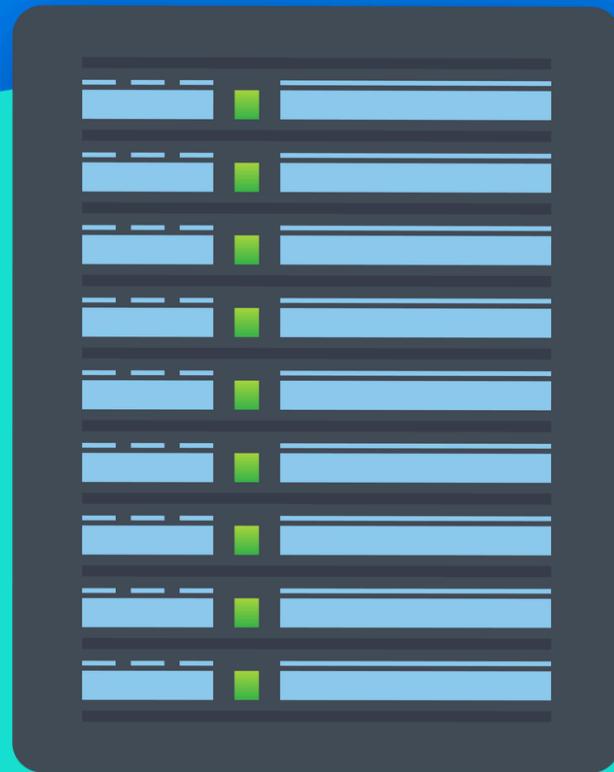

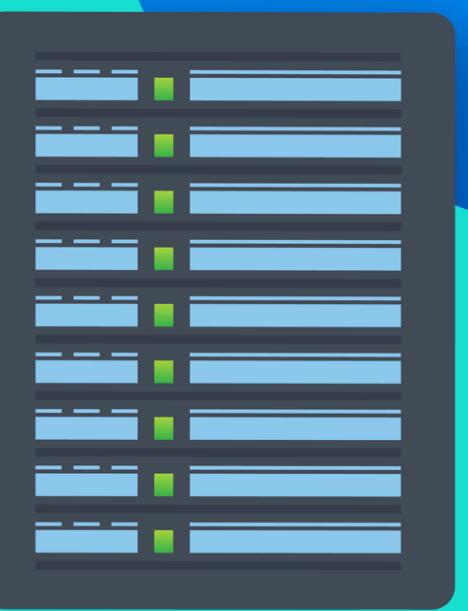

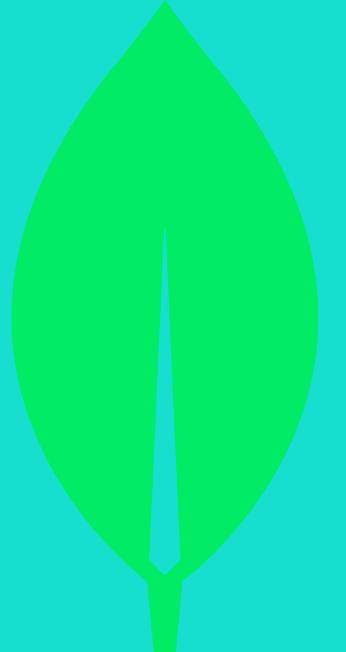

www.AdityamotoCorp.com

Project Overview

The E-Vehicle site was built using HTML, CSS, React, Node.js, and Firebase. The website is an all-in-one solution for showcasing products, selling bikes, and selling their accessories. Apart from this, my website also has the functionality of getting services at home, and it also has a map system to check the nearest charging stations.

NEW ARRIVALS

The image shows a vintage-style electric scooter, likely a Vespa-style model, parked on a brick-paved area next to a concrete wall. The scooter is dark-colored with chrome accents on the handlebars and mirrors. The background is slightly blurred, showing some greenery and a building.

ADITYA Moto C.

Vintage Scooters We never Forgot our Roots

Vintage electric scooters combine the classic design and style of traditional scooters with modern electric propulsion, offering a nostalgic yet eco-friendly mode of transportation. These scooters often evoke the aesthetic charm of mid-20th century scooters while incorporating advanced electric technology for a unique riding experience.

SERVICES

The screenshot displays a web browser window with the following details:

- Address Bar:** Shows the URL `127.0.0.1:5503/services.html`.
- Page Title:** The page title is "ADITYA MOTOCORP."
- Header Navigation:** Includes links for Home, Services, Locations, FAQ, and Contact.
- Main Content:**
 - A large heading **Services at your Fingertips.**
 - A sub-headline **Scoot around town hassle-free**.
 - Two calls-to-action: **Get Started** (in red button) and **Learn More →**.
 - A dark gray sidebar with the word **FEATURES** and the heading **Discover Our Features**.
 - A sub-sub-headline **Explore the functionalities that make our scooter service stand out**.
- System Status Bar:** Shows system icons for battery, signal, volume, and date/time (04:46 AM, 28-04-2024).
